

EMERGENCIES AND DISASTER PREPAREDNESS PLAN

All District staff and students must be prepared to respond quickly and responsibly to emergencies, disasters, and events which threaten to result in a disaster.

The Superintendent or designee shall develop and maintain a disaster preparedness plan which details provisions for handling all foreseeable emergencies and disasters. This plan shall be reviewed and updated at least annually.

Principals shall augment the District plan with working plans and procedures specific to each school building. All students and employees shall receive instruction regarding these plans.

The Superintendent or designee shall consult with city and/or county agencies so that district and site plans may provide the best possible way of handling each situation and also provide for emergency communications systems between these agencies and each District school.

District and site plans shall address at least the following situations:

1. Fire in a building.
2. Fire from an external source.
3. Bomb threat or actual detonation.
4. Natural disasters, including earthquakes.
6. Man-made disasters.
7. Attack or disturbance by an individual or group.
8. San Onofre Nuclear Generating Station evacuation procedures (in areas effected).
